New Delhi World Book Fair 2021 - Virtual Edition

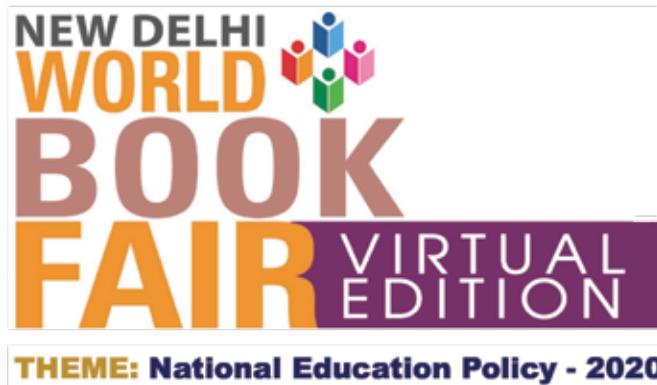

The unveiling of the New Education Policy (NEP) was a major step forward in bringing reforms to the educational sector in India. According to Dr Ramesh Pokhriyal 'Nishank', Hon'ble Minister of Education, the NEP is "To transform education and putting a significant thrust on learning about how to think critically and solve problems, how to be creative and multidisciplinary, and how to innovate, adapt and absorb new material in the novel and changing fields." Written extensively about and discussed, the New Education Policy purports to bring about an inclusive education to one and all.

Keeping in view the importance of the Policy, the 29th edition of New Delhi World Book Fair will focus on NEP as the theme programme. Besides creating awareness about basic features of the policy, the programme will host a series of panel discussions on various aspects of the policy.

Notwithstanding the disturbances that the pandemic created in our day to day life, reading was the only activity that continued unabated. Even though the Pandemic restricted the movement of the people, activities like schooling and online classes helped children to remain engaged with books.

In view of continuing restrictions on the movement of the people and to showcase some of the recent publications published during the pandemic period, National Book Trust, India is organising New Delhi World Book Fair from 12-15 February 2021. This is the first time that the NDWBF is being organised through online platform.

With national and international publishers participating, the Fair will provide a unique business opportunity and an ideal venue for promoting titles, exchange of copyright and trade. The Fair will provide unique experience for visitors

to visit the many stalls, browse and buy books, and participate in conversations, workshops, discussions, authors' meet among others, all in the comfort of the home.

Key Features

e-Children's Pavilion

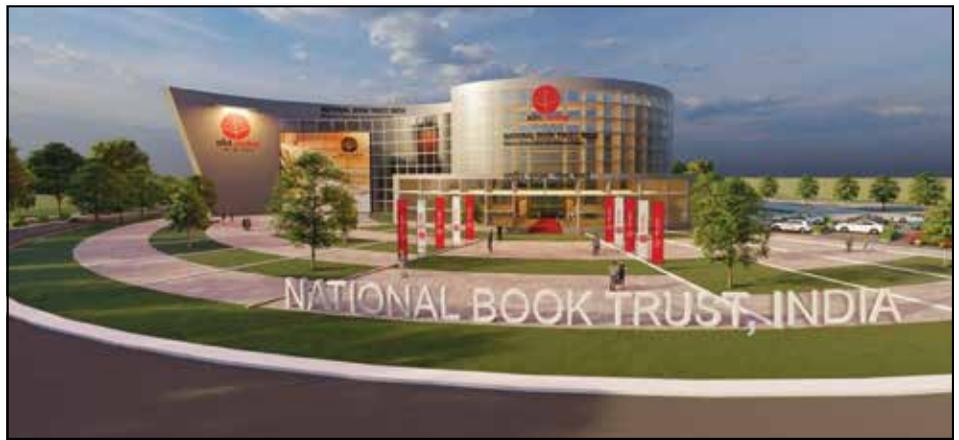

A number of activities promoting children's literature and reading habit will be organised in a specially designed e-Children's Pavilion.

e-Authors' Corners

Two e-Authors' Corners (Conversations & Lekhak Manch) will provide the right platform for dialogues, panel discussions and book launch.

e-International Events Corner

It is an engaging platform for sharing ideas and enhancing literary understanding. The foreign Exhibitors/Missions/International Embassies/Cultural Centres/Book Promotion Agencies are encouraged to book slots at the e-Events Corner for organising book launches, panel discussions, literary programmes and workshops for children as well as adults.

e-CEOSpeak (a forum for publishing)

The CEOs and Senior Executives are invited to participate in the B2B event CEOSpeak organised by National Book Trust, India, and FICCI, on the sidelines of the Fair to share and exchange ideas about Indian and International book trade.

e-New Delhi Rights Table

The e-New Delhi Rights Table offers B2B match making sessions among publishers in a refreshingly new business ambience. The unique e-format of this event enables

exhibitors to book their own Rights Table, meet each other, present their products and ideas, and also finalize their interests and agreements for transfer of translation and other rights of books available in English, Hindi and other Indian languages.

Child Authors' e-Corner

One of the first of its kind, NBT will put up e-Corner for published Child Authors, who will discuss their books, their inspiration to write, their role model authors, etc.

Swami Vivekananda: The Architect of Modern India

“Swami Vivekananda was the true architect of modern India,” said Swami Kirtipradananda, Registrar, Ramakrishna Mission Vivekananda Educational and Research Institute while delivering a lecture on the ‘Life and Message of Swami Vivekananda and the Relevance of his Message to the Contemporary World’. The online lecture was organised by National Book Trust, India to mark the 158th birth anniversary of Swami Vivekananda, which is also celebrated as National Youth Day.

Swami Kirtipradananda added that, “We live in a free and democratic country today, growing from strength to strength, yet still holding on to our national identity without foregoing the separate religious identities because of Swamiji's vision.” He added that his clarion call, ‘Awake, arise and stop not till the goal is reached’, continues to be a beacon of inspiration for the youth of India.

Swami Kirtipradananda also shared

in brief the story of Swami Vivekananda's life from birth to his historic speech at the First World's Parliament of Religions in Chicago, as he became India's spiritual ambassador and pleaded eloquently for better understanding between India and the New World in order to create a healthy synthesis of East and West, of religion and science.

In his welcome address, Prof. Govind Prasad Sharma, Chairman, NBT spoke about how the assimilation and propagation

of Swami Vivekananda's life and his works is the need of the hour. He said that if one is to truly understand the essence of India then one need not go further than understanding Swami Vivekananda himself. Swami Vivekananda always stood for the nation, her progress and her awakening, with patriotism always in his head and heart.

Speaking of Swami Vivekananda as the personification of the Indian knowledge tradition, Shri Yuvraj Malik, Director, NBT said that Swami Vivekananda's message of fearlessness and abdication of self doubt should be inculcated by everyone in their daily lives. His life and teachings are of inestimable value, as relevant today as they were in the past. He was a true ambassador of the country for showing the world India's strength through his innate devotion to the people and the society at large.

A Dialogue on NEP 2020 @ Nehru Centre

A dialogue on the “New Education Policy 2020 – NEP Outreach”, was organised by the Nehru Centre, London with National Book Trust, India (under Ministry of Education) as the nodal agency, on 18 January, 2021.

Speaking on the occasion, Shri Ramesh Pokhriyal ‘Nishank’, Hon’ble Minister of Education, Govt. of India said that under the leadership of our Hon’ble Prime Minister Shri Narendra Modi, the NEP-2020 has been implemented with a futuristic mindset, thereby turning the challenges into opportunities. It will equip India to hold a position in the global knowledge system while maintaining and developing its traditional knowledge system. “Through the policy, we are hoping to transform education and putting a significant thrust on learning about how to think critically and solve problems, how to be creative and multidisciplinary, and how to innovate, adapt, and absorb new material in the novel and changing fields. Pedagogy is expected to evolve to make education more experiential, holistic, integrated, inquiry-driven, discovery-oriented, learner-centred, discussion-based, flexible, and, of course, enjoyable,” Hon’ble Minister added.

Shri Vinay Sahastrabuddhe, President, ICCR, in his opening remarks said that the NEP-2020 is one of the greatest reforms presented by the Hon’ble Prime Minister Shri Narendra Modi.

Rt. Hon Jo Johnson, Educationist, Former Minister for Universities, Science, Research & Innovation, United Kingdom, lauded India’s NEP-2020 as an event of global significance and as a policy that will turn India into a global knowledge superpower, emphasizing its strong focus on early years, teachers, universal numeracy & literacy, etc. He also mentioned that the exciting fact about NEP-2020 is that it

proposes to shift the mode of assessment from summative to formative, testing higher order skills like critical thinking, analysis and conceptual clarity.

Rt. Hon Jo Johnson and Dr. Ramesh Pokhriyal ‘Nishank’ discussed the various provisions of the NEP-2020, such as teacher training, entry of top 100 foreign universities in India, and education in Indian HEIs.

The engaging and enlightening event was moderated by Shri Amish Tripathi, Minister (Culture), High Commission of India, UK and Director, The Nehru Centre.

Hindi Writers’ Guild, Canada Honours MoE

Hon’ble Minister Dr. Ramesh Pokhriyal ‘Nishank’ was awarded the Sahitya Gaurav Samman by the Hindi Writers’ Guild, Canada on January 16, 2021 for his literary endeavors, including the more than 75 books he has written on wide ranging issues, which have also been translated into many national and foreign languages.

Dr. Nishank was conferred with the award in the presence of Uttarakhand governor Smt. Baby Rani Maurya, through a virtual programme at the Raj Bhawan. India’s High Commissioner in Canada Shri Ajay Bisaria was also present on the occasion.

On receiving the honour, Dr.

Nishank expressed gratitude to Hindi Writers Guild Canada, Indians residing in Canada and employed Indian language organisations there. He said the award was dedicated to those who live abroad but remain committed to the Indian language and culture. “The honour is also

dedicated to crores of people of India including labourers, farmers and teachers who continue to strive hard towards nation building despite challenges and difficulties,” he said.

Dr. Nishank has touched almost all the genres of Hindi literature in his writings. But his favourite genre continues to be poetry. As for the topics, his concern is for the society and the common man—his life and his day to day problems. Most of his stories were inspired by real time experiences. Apart from stories, novels and poems, he has written a lot on Indian culture, tourism and personality development, in addition to writing for children as well.

VIRTUAL EDITION

NBT as Knowledge Partner

@ International Adolescent Summit 2020: Valedictory Function

The month-long 9th International Adolescent Summit, 2020: Life Skills, Health, Safety & School Wellbeing concluded on 12 January 2020. Organized virtually by Expressions India with National Book Trust, India as the Knowledge Partner, the event was inaugurated by Dr. Ramesh Pokhriyal 'Nishank' Hon'ble Minister of Education on 18 December 2020.

The Summit aimed at understanding the concept, needs and trends of School Mental Health and Life Skills and Value Education through national as well as global perspectives. The Summit also enabled an interactive dialogue on Good Practices Discussion on integration of school safety, sanitisation, nutrition, hygiene and mental health promotion program within the comprehensive school health education curriculum and life skills programming. The Summit saw an active participation of nearly 14,000 students and teachers from over 1200 schools from all over India and abroad. The Summit provided a platform to students and teachers to exchange views. Besides facilitating exchange of views, the Summit also helped in promoting cultural exchange.

The National Resource Faculty comprising of various eminent educationists, artists, counsellors, psychologists, academicians from across India as the National Resource Faculty

guided the students in the month long Summit.

Various events such as poster-paintings, Indian classical dance, Nukkad Natak and making short films along with Yuva Sansad provided an eclectic platform where students interacted with each other to promote creativity and awareness in health, wellbeing, friendship and peace. The International Adolescent Summit also endeavoured to facilitate an understanding of other adolescent concerns such as gender sensitization, family bonding and communication, media literacy thus, enabling a conducive environment for application of Life Skills and partnering for Behavioural and Emotional Safety of school going students.

Describing adolescents as our teachers, Shri Rajat Sharma, Chairman & Editor-in Chief, INDIA TV News, and the Guest of Honour at the concluding session, said that they constantly teach us new ways of life and lead the world to a new direction. He applauded the program director, Dr. Jitendra Nagpal for successfully organizing this interactive summit wherein the adolescents were not mere audience but an integral part of the entire program. He said that good health, both mental and physical, is the most

important aspect of life and the biggest lesson that the pandemic has taught us. Adolescents especially need to focus on their mental well-being.

“If you are rich, travel. If you are poor, read. But if you are in between, then do both,” said Shri Yuvraj Malik, Director, NBT. He enjoined the adolescents to have self-faith and believe in their own capabilities. Recognizing the adolescents as future leaders and future of the nation, he encouraged them to embrace the talent that sleeps within and express it fearlessly. Adolescence is the stage of life where one has unlimited capabilities, strength and the youth should be fearless in accepting and expressing their talent.

Adolescence is an important phase of life where an individual goes through self-realization and requires the right guidance and mentorship to build his life. The importance of introducing the adolescents to the rich Indian culture and history at this age so that they inculcate human values and ethos early on, was highlighted in all the events and interactive workshops of the Summit. During the course of the Summit, the students engaged with participants from schools across the country and abroad in various events that helped foster a newer understanding of 21st-century life skills, innovative programs for promoting values, gender sensitivity, health and wellbeing.

A Students Charter on Life Skills, Health, Safety and School Wellbeing-2020 was also drafted and came into effect at the conclusion of the Summit, after extensive deliberations during the International Summit that facilitated the voice of school students from across the country who came together for the first time in addressing their opinions, needs and concerns regarding the core themes such as health and wellbeing.

Excerpts: Vivekanand in the Himalayas

National Book Trust India has published a book titled *Vivekanand in the Himalayas* written by Dr. Ramesh Pokhriyal 'Nishank', Hon'ble Minister of Education, Govt. of India. Herein we reproduce an excerpt from the chapter 'Found Solutions to his Problem by Travelling across India' from the book. - *Editor*

"No power in the body, no excitement in the heart, and no talent in the mind-what will happen with these dead objects? I want to shake it to bring vibrations to it. I have taken a lifelong pledge. I will awaken it with infallible incantations. I have taken birth to recite the dauntless voice of 'Uthistht Jaagrat' (Jubilant Consciousness). Be my assistant in this."

– Swami Vivekanand

After almost two years of their stay at Baranagar Mutt, the young monks felt an urge to travel across India on a pilgrimage to learn about Indian culture and civilization. According to Indian traditions all monks had to live the life of a wandering mendicant. With the permission of Narendranath, a program was chalked out for the pilgrimage and so they all set out on their journey.

Naren with his other co-disciples initially began their travel to places at short distances with minimal things in hand like a staff and a kamandal, an oblong water pot. They would then come back to Baranagar Mutt. But Naren was never at peace with himself. He began to realise that his life was meandering in the dark lanes of ignorance, and the people were subjected to exploitation by the affluent and the priests. The distressing cries of his fellow Indians shook him from within and he found himself unable to concentrate anymore on the work at the Mutt.

Naren decided to travel all over India, and personally observe and study the problems faced by his countrymen from close quarters. In the year 1890, Naren went to meet mother Sharda Devi, seeking her blessings to undertake the journey. At that time, Sharda Devi, the teacher-mother of the disciples of Sri Ramakrishan, was staying at Ghusdi village on the western banks of river Bhagirathi. Bowing down in respect to Mother Sharda Devi, Narendra requested- 'Mother, until the time I cannot prove myself to have completed the work

entrusted to me by my reverend teacher I will not return. Kindly bless me.'

Mother Sharda put her hand on his head and blessed him with a motherly affection. Then he left for his journey on foot, with a staff and kamandal. He traveled again with a spiritual fervor to Varanasi, Lucknow, Vrindavan, etc.

While travelling from Kanya Kumari to the Himalayas Narendranath experienced different aspects of India.

His teacher Sri Paramhans was of exceedingly religious temperament. Every day, he would be absorbed in his devotion to God. His personality was simple, but God was his soul and life. India is a reflection of Sri Ramakrishna, Narendranath realized, during his travels across the country. The soul of this country is religion and spiritualism.

It was his astute comprehension and thought that Indian civilization is to be understood only in tandem with its religion and innate spiritualism and not separately. In short, the Indian civilization, its literature, culture, arts and crafts, song and music is a reflection of this spiritualism, essentially its real strength and wealth.

Despite his exceeding love for the country, Narendranath realized its weaknesses too, and could not hide or ignore it.

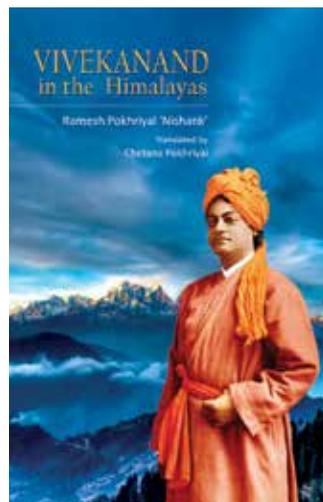

He was not oblivious of the fact that India is a poor and an illiterate country, the main reason for the condition she is in. Religion was based on caste system where people of the lower caste are subjected to all kinds of exploitation. Even the condition of women was deplorable.

He said-'O India! Forget not that the ideal of your womanhood is Sita, Savitri and Damayanti; forget not that the God thou worshippes is the great Ascetic of ascetics, the all renouncing Shankara, the Lord of Uma; forget not that thy marriage, thy wealth, thy life are not for sense-pleasure, are not for thy individual personal happiness'. He always thought of solutions to improve the prevalent conditions in India. He found answers to his doubts and anxieties through deep meditation and study. All the pages of Indian history opened before his eyes.

He realized that the resurgence of India can come about through its spiritual consciousness and only then its pride will be restored. It was also necessary to learn from other countries and the advancements in science and technology particularly from western countries.

Religion and spiritualism being the real strength of India, Narendranath thought that it was necessary to explain to the world what our actual religion is, and was determined to spread this knowledge which he had acquired through his extensive travels, study and the realization of his inner strength.

He said- 'Brothers! This is the time for all of us to work very hard. This is not the time to sleep. The future of India depends on the work that we do now. Look, Mother India is slowly opening her eyes. She had been sleeping for some time. Arise and awaken in them the glory of her past and with devotion, establish them on the eternal throne.'

Vivekanand in the Himalayas

Select NBT Titles on Science

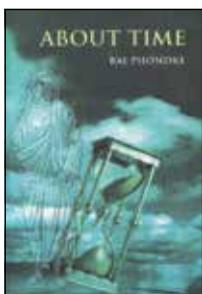

National Science Day is celebrated every year on 28 February. The day marks the discovery of phenomenon of the scattering of life popularly known as 'Raman Effect' by Sir C V Raman. For this discovery he was awarded the Nobel Prize in 1928. As part of its science popularisation programme, NBT publishes books on various areas of science. Some of the books are given below.

About Time

Bal Phondke

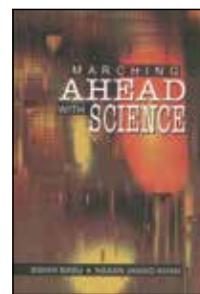

Time assumes a mystic, surreal character when one realises that it has no beginning nor end. It is eternal. It flows only in one direction, from the past to the future. This book tries to understand Time in its entirety, in a Vikram-Betal story format.

ISBN 978-81-237-4103-1; Rs. 75.00

nor did it have a sound industrial base. Yet five decades later, it is now a major technological power with the capability to design, build and launch its own satellites, nuclear power plants and supercomputers. An overview of these and many more achievements is presented in this book.

ISBN 978-81-237-3486-6; Rs. 140.00

Environmental Ethics and India's Perspective on Environment

Niranjan Dev Bharadwaj

In discussing the importance of environmental ethics in our life, the book reflects on how traditional Indian thought and wisdom understood the importance of this relationship and essentiality of the sense of universal responsibility towards the environment. It also looks at the many ways in which each one of us can contribute to the well being of the nature.

ISBN 978-81-237-8048-1; Rs. 160.00

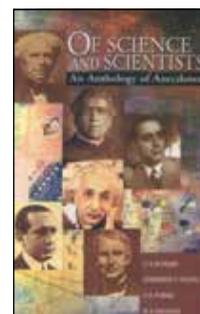

Of Science and Scientists: An Anthology of Anecdotes

A N Kothare & others

Although a lot is available in the form of biographies and writings of scientists, very little information is found on what made them not only great discoverers but humane too, blessed with humour, humility and humanism. This book helps to convey this very aspect of scientists.

ISBN 978-81-237-0917-8; Rs. 105.00

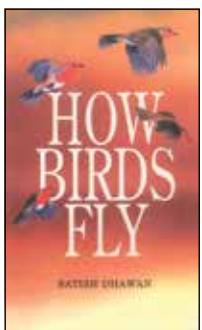

How Birds Fly

Satish Dhawan

Avian flight has fascinated man since ancient times, but it is only in recent times that we have been able to explain the dynamics of animal flight. The evolution of animal flight, description of structure and musculature of wings and feathers and elementary theory of lift and drag have been explained to elucidate take-off, landing and hovering of birds.

ISBN 81-237-3738-6; Rs. 80.00

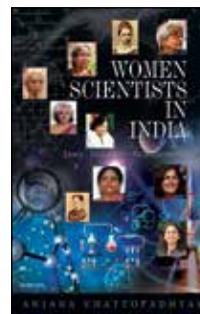

Women Scientists in India: Lives, Struggles and Achievements

Anjana Chattopadhyay

Indian women have had a strong presence in the sciences for well over a century. The story of Indian women scientists has been one of struggle. Overarching social structures, uneasy access to education, discrimination etc. contributed mainly to the impediment of the progress of women in science. The road paved by some of the pioneering women scientists, has today, to a large extent cemented the path for future generation, to fulfill their scientific ambitions.

ISBN 978-81-237-8144-0; Rs. 485.00

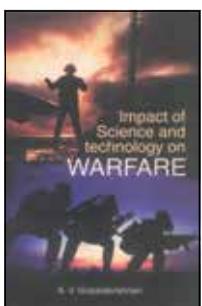

Impact of Science and Technology In Warfare

K V Gopalakrishnan

Warfare has been a constant feature of human history and the most powerful impact on it has been due to the application of science and technology in the past few centuries. In this book scientific and technological breakthroughs are described and their impacts are also discussed.

ISBN 81-237-4060-3; Rs. 110.00

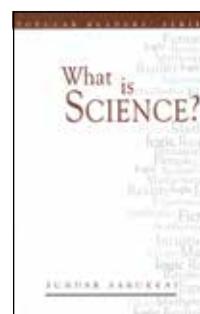

What is Science?

Sundar Sarukkai

The idea of Science dominates the modern world. However, the nature of science—what science really is—has been quite elusive. Science is commonly associated with themes like truth, logic, rationality, objectivity, knowledge and genius. But how far are these common beliefs about science really true? This book is a way of thinking about science, primarily from a philosophical perspective. It also introduces specific Indian paradigms which are relevant to understanding science.

ISBN 978-81-237-6366-8; Rs. 150.00
